2. Citations and explanations

Document 1:

JP, 8-313186, A (MITSUBISHI ELECTRIC CORPORATION), 29 November 1996 (29.11.96), full text, all drawings (Family: none)

Document 2:

Microfilm of the specification and drawings annexed to the written application of Japanese Utility Model Application No. 030488/1980 (Laid-open No. 132471/1981) (MITSUBISHI ELECTRIC CORPORATION), 07 October 1981 (07.10.81), full text, all drawings (Family: none)

Document 3:

Microfilm of the specification and drawings annexed to the written application of Japanese Utility Model Application No. 122361/1978 (Laid-open No. 039434/1980) (MITSUBISHI ELECTRIC CORPORATION), 13 March 1980 (13.03.80), full text, all drawings (Family: none)

Claims 1-4

The aforesaid documents 1 and 2 both describe a constitution that corresponds to the point about alternately stacking a first ventilation passage and a second ventilation passage.

Furthermore, in the aforesaid documents 1 and 2 the constitution corresponding to first ventilation passage and second ventilation passage has a cross-sectional shape that is essentially triangular, but the question of what sort of shape to provide is a matter of design variation to be appropriately decided by a person skilled in the art as desired.

Claims 5-17

None of the aforesaid documents 1-3 describes a constitution that corresponds to the point about an opening part that overlaps the ventilation adjustment means and the second ventilation passage.
